

GALAXY  
MATERIAL HANDLING

TRA: **E-3**  
Speed Rating: **A2**

The Galaxy HM 350E is designed specifically for port applications. It features an exceptionally wear-resistant rubber compound that reduces heat generation to extend tread life. The solid center enhances wear properties. The wide, flat tread shape maximizes tread contact with the surface for superior traction and wear. The casing is specially designed to resist separation between layers as well as between the tread and casing, allowing it to operate in high-pressure conditions.
