

**GALAXY
AGRICULTURE****TRA: I-2**
Speed Rating: A8

The Galaxy Lo-Pro High-Flo is designed to be used primarily on retracted tools, such as presses and feed tanks. This tire features a unique directional tread pattern. The eyelets are open and angled at the shoulder for stability. The extra-rigid center rib enhances tire wear when used on paved roads. The directional pattern and special design of the lugs at the shoulders allows the Lo-Pro-Hi-Flo to continue rolling where most others would stop rolling and start sliding.
