TRA: **LS-2**
Speed Rating: **A8**

344 Forestar is a steel-belted tire that provides high puncture resistance. Special tread compound along with thick sidewalls with under tread provides additional strength to the tire. The reinforced bead of the tire provides exceptional performance with extra bead protection. Its tread design and lug angle provide excellent grip. Wide inter-lug space helps in self-cleaning. The close spacing of the lugs in the center of the tire gives better stability & reduces rolling resistance.
