2WD TRACTOR

4WD TRACTOR

The Galaxy EarthPRO 45 tread lugs start at the shoulder with a 45-degree angle for maximum traction and excellent self-cleaning in the field. As the tread lugs reach toward the centerline, they thicken and curve inward, creating a wide nose bar for smoother performance and increased service life on gravel and pavement.

In the field, on the road, or around the farm, the Galaxy EarthPRO 45 delivers excellent performance at a competitive price. With sizes for rims ranging from 20 to 38 inches, there's an EarthPRO 45 for nearly any tractor, front or rear axle.

## INNOVATIVE NEW TREAD DESIGN

- Performs well for on and off-road applications
- Excellent self-cleaning
- Low road noise with a comfortable ride
