This certificate is issued pursuant on the conditions below:

*The facilities shown on this certificate have been appraised in accordance with VCA procedure PC017 to indicate their suitability for official witnessed tests and/or COP purposes to VCA engineers. This certificate does not constitute any formal approval, and recognition by third parties for this or any other purpose is entirely at their own risk. **The appraisal is valid for this facility for a maximum period as stated above from the date of approval, but VCA reserves the right to reassess the entry if witnessed tests are not routinely undertaken. The facility is obliged to inform VCA of any major changes to equipment, procedures or personnel within this 2 year period, and at its discretion VCA may temporarily or permanently remove the facility from the register of certified facilities without notice until a satisfactory reappraisal has been completed. Application must also be made to extend the use of the facility to cover additional or new Directives and Regulations.***
